LOOK, FELLAS--
MY FAVORITE MAGAZINE

Yep, that's right, boys—it's MECHANIX ILLUSTRATED, the biggest and best magazine bargain on the newsstands today!

What I like about it is that it's a real honest magazine—not something for sissies! And if you're a real kid of fourteen I think you are, you'll enjoy every one over a hundred pictures!

MECHANIX ILLUSTRATED has just about everything. There are many pages for the hobby fans, scores of projects for you to build in your workshop, a complete photography section in every issue, a section devoted to patents and inventions, a department for the kids who are studying shopwork in their schools, hundreds of photographs of the latest scientific and mechanical discoveries, a department specializing in war news and inventions, the latest developments in aviation and, better still, a features section that seems to beat the pants off of the other magazines when it comes to giving you something new, extraordinary and exciting.

But here's another reason why I like it—you get your money's worth! Every month you get 164 pages—think of it—of real meaty reading matter, and all at a cost of only 10¢!

So, take my advice, fellas, and if it's a magazine bargain you want, then get a copy of MECHANIX ILLUSTRATED today! You'll never stop thanking me for telling you about it.
